

Just Say NO! To Drugs Down the Drain

City of Fillmore

Prescription Medication Turn In Program

There are many risks associated with storing prescription drugs that are not part of a current drug therapy. The prescriptions may be outdated and not effectively treating the symptoms. In addition, if prescription drugs are being stored and no longer needed, there is possibility that the drugs could be stolen or mistakenly taken by others.

The Fillmore Police Department works in conjunction with the Ventura County Sheriff's Department to dispose of your unwanted medications in a safe manner. The program is free to our residents.

If you have prescription drugs that are outdated, no longer needed or you just do not know how to dispose of, please bring them by the Police Station, Monday through Friday 8:00 A.M to 5:00 P.M.

"The Fillmore Police Department's goal is to make households safer by reducing the likelihood of accidental ingestion of old medications and do our part to help our city maintain a high quality of recycled water."

Chief Tim Hagel
